University of Massachusetts Amherst & Amherst College — Amherst, MA
Advisor: Lee Spector

- ➥ Working on improving selection strategies for evolutionary computation systems such as genetic programming.
- ➥ Main focus is on Lexicase selection, a novel selection strategy that has shown promise in evolving diverse populations.

Safe, Confident and Aligned Learning + Robotics (SCALAR) lab — Fall 2022–
Manning College of Information and Computer Sciences — Amherst, MA
University of Massachusetts Amherst
Advisor: Scott Niekum

- ➥ Using Multi-Objective Optimization to improve alignment of inverse reinforcement learning from human preferences.

Biologically Inspired Neural & Dynamical Systems Lab (BINDs) lab — 2021–2022
Manning College of Information and Computer Sciences — Amherst, MA
University of Massachusetts Amherst
Advisor: Cooper Sigrist

- ➥ Selected for the BINDslings program.
- ➥ Advised by a graduate student, explored modularity of neural networks.

WORK EXPERIENCE

X-Camp Academy — Fall 2021-
Teacher

- ➥ Teach computer science to middle- and high-school students aiming to go into competitive programming.
- ➥ Catered for students to participate in the USA Computing Olympiad (USACO).

Teaching Management Team

- ➥ Communicate needs and expectations to and from development and operation teams.
- ➥ Led the migration to a new teaching platform facilitating effective teaching and scaling of the company.
